NEWS from the COUNTY

To CORRESPONDENTS:—Always sign all items sent to this office. Your name will not be published, but it MUST be signed to all items intended for publication, so that we may know who contributes the news. Also, kindly limit your items to three or four pages of copy, as we have many neighborhoods represented and desire to give each an equal amount of space. Of course, should there be anything of more than ordinary interest or importance, send it in and we'll try and provide the space; but as a rule the amount we suggested is all the personal neighborhood news we can conveniently use regularly.

What might have been a serious accident occurred one day last week when our mail carrier, Frank Spangler, drove up to the water tank at Mr. Fish's to water his team. The horse struck at him knocking him over in the tank. The water being deep in the tank the horse started to come in after him, striking his arm and bruising it badly. Clear Lake.

Mrs. Jerry Holderman celebrated the 54th anniversary of her birthday at her daughter's, Mrs. Ernest Brown, July 26. She was the recipient of several presents. Among the donors were Grandma Mendenhall, Mrs. Macy, Mrs. Brown and others.

Wheat threshing is the order of the day with an average of about ten bushels to the acre.

Jerry Holderman lost part of a finger while carpentering at Gate.

What broomcorn the grasshoppers left the dry weather is trying to get. Lots of it is firing and just coming into brush. It is said there never was, in the life of Clear Lake, such a poor prospect for brush, although some few crops look fine. Some of the late planting may make yet. The latest the writer knows of is just out of the ground. Under very favorable circumstances it may get in on time for our first killing frost.

Some sorghum in the head and crop all but sure. A very small acreage in Mr. Stanton's was so thin on the ground and it was replanted to milo. In less than 60 days it will be on the market.

Quite a few were in from Twin Mound vicinity, among whom were H. H. Martin, J. S. Johnson, Roy Hopper, Hurb Lee, E. A. Macy and L. Girton, most all on the hunt of something to eat and our merchants had it. Only one complaint and he wanted cabbage, corn and new tomatoes.

Jess Gofford, who expected to pull brush July 29, is delayed by other work.

The farm of James Stafford has the best and prettiest prospect for a crop, one half mile south of here.

Our neighbors were all awakened about daybreak by one of the most welcome rains in a long time. Some jumped up and ran to save their chicks from drowning. Mrs. Ed Lane was one of that number as she has about 50 little chicks. Others with their crops layed by and nothing to do only to wait the harvesting of their crop, just turned over in bed, thanked the Lord and took another nap. So everyone in this respect is happy in this vicinity and more is looked for ere this goes to press.

Mrs. M. M. Gillett's residence and store at Marengo had a very close call by lightning striking a telephone pole in front of the house.

Grandma Mendenhall, who has been sick nearly all the time since July 4th, is hoped at this writing to be improving.

Harry Lane is the first heard of to pull broom brush, August 1st.

The Trials of a Traveler.

"I am a traveling salesman," writes E. E. Young, E. Berkshire, Vt., "and was often troubled with constipation and indigestion till I began to use Dr. King's New Life Pills, which I have found an excellent remedy." For all stomach, liver or kidney troubles they are unequalled. Only 25 cents at Fred C. Tracy's.

We had a good crowd at Sunday School last Sunday.

Yes, they nearly all come back that can. Ed Stites, who has been in Missouri for some time, is back again.

There is to be a religious debate at Appleton soon between Rev. Castleberry, Baptist, and Elkins, Christian. You are invited if you are interested. Don't forget Sunday School at Bunch Grass every Sunday morning at ten o'clock.

Wise Old Owl.

A vast amount of ill health is due to impaired digestion. When the stomach fails to perform its functions properly the system becomes deranged. A few doses of Chamberlain's Tablets is all you need. They will strengthen your digestion, invigorate your liver, and regulate your bowels, entirely doing away with that miserable feeling due to faulty digestion. Try it. Many others have been permanently cured—why not you? For sale by all dealers.

Bunch Grass.

(Dombey neighborhood.)
August 2d, Well, we are up with the hoeing this year and we're not sorry but when we look at the large bean patch, the peanuts and splendid sweet potatoes, we know it pays. Ye writer has one of, if not the nicest sweet potato patches in the neighborhood.

der. We expect the south side will have wellsgalore now.

We drove to Liberal last Thursday and all the way were pleased to note the good crops of all kinds. In a few places the grasshoppers were doing some damage but none to speak of. We learned, too, that the wheat was yielding from 10 to 20 bushels per acre.

Range 19-20 is getting to be rather a romantic range line. It is, as you know, the county line. The first couple to be married in the road was Henry Peters and Lela Drake and last Sunday Henry and Lela brought Jack Johnson and Iva Blankenship over to the line then drove over and got Rev. E. H. Atherton to come over and tie the knot. These young people all live at Boyd.

Henry Peters and wife were visiting in this neighborhood Sunday.

Mr. Bell's son is able to be up again.

Will and Jim Kulow came home from Guyton Saturday where they have been attending normal and taking examinations. The boys are going to teach in Texas county the coming year. Flying Men Fall

victims to stomach, liver and kidney troubles just like other people, with like results in loss of appetite, backache, nervousness, headache, and tired, listless, run-down feeling. But there's no need to feel like that as T. D. Peeble, Henry, Tenn., proved. "Six bottles of Electric Bitters," he writes, "did more to give me new strength and good appetite than all other stomach remedies I used." So they help everybody. Its folly to suffer when this great remedy will help you from the first dose. Try it. Only 50 cts at Fred C. Tracy's.

Sophia Clatter.

Isn't it warm?

One of the greatest crimes of the age is the failure to use our knowledge. Much is produced with old, worn out machinery and by out-of-date methods because there is more profit to be made by retaining the old methods than by substituting new and up-to-date machinery. This is especially true of the farming industry where old methods are retained because the farmers can only make a bare existence and have no capital to introduce new methods with.

Mrs. Darling was calling on Mrs. Hughes Monday and she tied her horse out to graze but the horse gets homesick and breaks loose and goes home and the poor old lady had to walk home, a distance of about three miles.

Beware of the broomcorn buyer! They are abroad in the land and have been saying that they would contract new brush for \$150.00. Our advice, boys, is to go slow, don't be in a hurry to sell. It is a positive fact that there will not be fifty per cent of last year's crop. You, who have early brush to sell, get all you can for it.

Good crops all over the county where the grasshoppers have not eat it all up.

What do you know about fishing on Clear creek with grasshoppers? C. B. Barker and Bro. Boston went to Clear creek last Saturday evening and C. B. caught 26 fish in two hours; caught five catfish that weighed 5 lbs each. Late of an evening is the time to catch fish, especially catfish. He caught 35 one evening and 15 another evening. How is that?

There is so much rain in Beaver county that some of the wheat that is not well stacked is in a bad shape. Some of it is wet clean through. It pays to stack wheat and not just pile it up.
